DETAILED DESCRIPTION OF THE FUNDING MECHANISM

By County Board resolution, all funds for the equipment, networking and facilities required to operate the 9-1-1 emergency telephone number system are to come from the funds collected through an eighty-five cents per network connection (15,060 access lines) surcharge. Monthly income is approximately \$12,800. Annual income is approximately \$153,600.00.

As of 2001, we get funds from the Illinois Central Management Services for reimbursements from wireless telephone carriers at the rate of approximately \$4,000.00 per month. By the Logan County ETSB approval, we are including this added income to our annual budget. The wireless funds are being designated to certain line items for audit and account purposes.
